

Certificate of Security

SL50 series Data Loggers

Products Affected

SL51T, SL52T, SL53T, SL54TH, SL51USB, SL51USB, SL54USB, SL55T, SL55D.

Description of Product

The above products have been designed to log and store physical values (Temperature and Relative Humidity) at selected log intervals, to store this data and to present it to TempIT, the companies bespoke software platform.

Declaration

The internal memory is used solely for the recording of the physical parameters it is designed to record and does not log or store any information from the host computer it is attached to.

The hardware and software supplied have been scanned for viruses and are believed to be virus free.

Disclaimer

Although the products as supplied have been scanned for viruses and the company believes them to be virus free, it is the customer's responsibility to perform a virus scan to confirm that this is the case and the company does not accept liability for any virus transmitted in or out with any product supplied.
