Lithium Battery Statement

Requirements for shipping shipments with tempmate-S1 data loggers

tempmate-S1 data loggers contain CR2450 lithium metal button cell batteries. These batteries meet the requirements of IATA DGR for 2020.

With changes to the IATA DGR for 2020, tempmate-S1 data loggers containing lithium metal button cells are no longer required to use the battery handling label based on Packing Instruction UN3091:970 "Additional Requirements - Section II".

Your package does not need to be shipped as Dangerous Goods.

Please see IATA Dangerous Goods Regulation (DGR) packing instruction UN3091:970 Section II for batteries in equipment: <https://www.iata.org/lithiumbatteries>

"However, button cell batteries installed in equipment (including circuit boards) need not be considered..."

Shipping tempmate-S1 data loggers does not require a handling label or safety documentation!
